

***e-snaps* Accepting TAPR Submissions**

HUD has identified the cause of the error message received by many CoC program grantees when they tried to submit their Transition Annual Performance Reports (TAPRs) *e-snaps* this month. *e-snaps* has been corrected so grantees can now submit their TAPRs. However, the correction required that HUD turn off the field office email notifications. Since field office staff will not receive an email when each TAPR is submitted, HUD headquarters is working to generate a report for field office staff that will list each TAPR submitted.
