

IMPORTANT HPRP NOTICE

On June 9, 2009, HUD posted the “Notice of Corrections to the Notice of Allocations, Applications, Application Procedures, and Requirements for Homeless Prevention and Rapid Re-Housing Programs Grantees under the American Recovery and Reinvestment Act of 2009” (HPRP Notice). This document describes the following 6 changes that are being made to the HPRP Notice:

- Provides a corrected timeline for HUD’s review of HPRP Substantial Amendments;
- Provides authority for grantees to request waivers of certain provisions of the HPRP Notice, and HUD to process those requests;
- Clarifies that the District of Columbia is classified as a Metropolitan City;
- Provides a correction stating that housing relocation and stabilization services may only be provided to any program participant for up to 18 months;
- Extends the time frame in which eligible pre-award costs may be incurred; and
- Allows for a 90-day grant close-out period for reimbursement of eligible costs incurred within the 3-year grant period.

Please review these clarifications and corrections carefully as they may impact the planning and delivery of services using HPRP funds in your community. You can visit HUD’s Homelessness Resource Exchange (<http://www.hudhre.info/HPRP/>) to review these clarifications and corrections, as well as any additional information related to HPRP.
