

UPDATE
HPRP APR – Delayed Opening
October 6, 2011

As explained in a HPRP listserv message earlier this week, HUD encountered a technical issue with the release of the HPRP APR in *e-snaps*. In order to minimize the impact on the system while the 2011 Continuum of Care Competition is open, HUD will not be opening the Year 2 HPRP APR in *e-snaps* until after the CoC competition closes.

The Year 2 HPRP APR will open on Tuesday, November 1st. At this time, HUD does not anticipate extending the November 30th deadline for the Year 2 HPRP APR.

Although grantees will not be able to complete and submit the Year 2 HPRP APR in *e-snaps* until November 1st, there are several things grantees can do now to be ready to complete the report once it is open. HUD encourages grantees to:

- Run the HPRP APR in your HMIS for the Year 2 reporting period (October 1, 2010 through September 30, 2011) now;
- Examine the HPRP APR for missing data or other data quality issues that may impact accuracy of the data;
- Continue to work with HMIS lead and HPRP subgrantees to review data quality and address any data quality issues during the next few weeks; and
- Review the updated [HPRP APR Guidebook](#), the [HPRP APR Questions Template](#), and other guidance materials available on the HUD Homelessness Resource Exchange at www.hudhre.info/hprp.

HUD has also updated the Aggregation Tool to include the new question 5c. Users can [access it from the HRE](#) or can [download the zip file directly](#).

****Please note that the Q9 QPR is not affected, and is still due on Friday, October 14th.****
