

HPRP Quarter 2 QPR Error Message in e-snaps

Many grantees entering data in the Q2 QPR in *e-snaps* reported receiving an error message when attempting to complete the “Projected Persons/Households to be Served” chart. The error message should have only appeared when the sum of the number of persons projected to be served with Homelessness Prevention plus the number of persons projected to be served with Homeless Assistance was less than the total number of persons projected to be served. Unfortunately, there was an error in the logic so the error message appeared when the sum of projected persons was equal to the total number projected to be served. This error has been corrected so grantees will only receive this message when the sum of the projected persons is less than the total of projected persons for any row in the chart.

Please continue to submit questions to the Virtual Help Desk at: www.hudhre.info. All questions about reporting in *e-snaps* should also include a screen shot whenever possible.
