

HPRP Reporting Clarification

Some HPRP grantees have contacted the Recovery Accountability and Transparency Board (RATB) asking for clarification of the status of reports submitted in FederalReporting.gov after the statutory deadline of January 10. RATB has announced an extended submission period from January 11 – January 14, 2011. While the date a report is submitted does become part of the permanent record, it should be clear that there will be no penalty for submitting during the extended reporting period.

The goal of RATB and the goal of the HUD HPRP Team is to encourage 100 percent compliance with the reporting requirements of Section 1512 of the ARRA.
