

Vendor Updates: HPRP APR

July 1, 2011

HUD is adding one question to the HPRP APR that is based on queries vendors have programmed for the current version of the HPRP APR. The addition of this question is the only programming change expected for the Year 2 HPRP APR. The question will collect an unduplicated count of all persons served in HPRP, regardless of their housing status at entry, by household type. Unduplicated total persons served is reported on a number of the demographic questions, but is not presently available in a format that mirrors the total persons served with prevention and homeless assistance. The addition of this question will also support enhanced error checking. Data collection requirements for HPRP grantees will not change as a result of this addition, but vendors will need to program a new question into their HPRP APR.

5c. Persons Served by Household Type – Homelessness Prevention and Homeless Assistance

Number of Persons in Households

	Total	Without Children	With Children and Adults	With Only Children	Unknown Household Type
Adults	<i>e-snaps</i> completes				
Children	<i>e-snaps</i> completes				
Don't Know/Refused	<i>e-snaps</i> completes				
Missing Information	<i>e-snaps</i> completes				
Total		<i>e-snaps</i> completes	<i>e-snaps</i> completes	<i>e-snaps</i> completes	<i>e-snaps</i> completes

HUD anticipates releasing an updated “HPRP APR Addendum to the CoC APR Programming Specifications” by Monday, July 11th. This update will be posted on [HUD HRE](#) and will be announced via the HMIS Solution Provider listserv. The APR Report Generation Tool will be updated to include this question and is expected to be released in July. An HPRP APR Test Kit also will be released in July to help vendors test the accuracy of their APRs.

Please submit all questions related to the APR, Programming Specifications, Test Kit and the APR Report Generation Tool to the
